Nurse Practice Acts are the state laws that govern nursing practice and in some cases, nursing education. The purpose of Nurse Practice Acts is to promote, protect and preserve the public health, safety and welfare by means of regulating the practice of nursing and schools of nursing within the state.

Learn about your state’s Nurse Practice Act through this online continuing education (CE) program. NCSBN has partnered with participating state boards of nursing to develop online courses where nurses can learn about the laws and regulations that govern the practice of nursing and schools of nursing within the participating states. After reviewing the material presented, nurses can take a short exam for a \$12 fee. Upon successful completion, a certificate documenting 2 contact hours is issued.

Who Should Take This Course

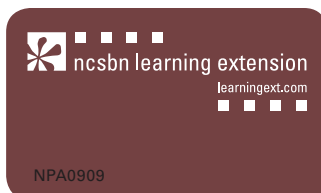

This program is for every nurse in every practice setting at every level of practice.

Participating Boards of Nursing

The following is a list of current participants in the online Nurse Practice Acts program. Check back often, as we are adding new state boards of nursing frequently!
