**Medication Errors** educates nursing professionals on the dangers of medication errors, provides prevention strategies, and delivers insight into handling various situations. Learners initiate development of a personal improvement plan addressing processes or procedures within the nurse's practice and facility to prevent medication errors.

## Course Author

This course was developed by the National Council of State Boards of Nursing (NCSBN) and written by Tonia Aiken, RN, JD, BSN, and Julia Aucoin, RN, DNS, BC.

## Who Should Take This Course

This program is for every nurse (PN/VNs and RNs) in every practice setting at every level of practice.

## Recognize

events and actions that lead to medication errors.

## Identify

strategies to prevent risk exposure through appropriate nursing practices.

## Describe

strategies to address medication errors made by colleagues.

## Determine

the role of system failure in medication error management.

## Analyze

the adverse effects of medication errors on patients, facilities, and the health care system.

## Initiate

a personal improvement plan to prevent medication errors.
