Nurse Practice Acts are the state laws that govern nursing practice, which are enforced by each board of nursing.

The purpose of Nurse Practice Acts is to promote, protect and preserve the public health, safety and welfare by means of regulating the practice of nursing and schools of nursing within the state.

Learn about your state's Nurse Practice Act through this online continuing education (CE) course. NCSBN has partnered with participating state boards of nursing to develop online courses where nurses can learn about the laws and regulations that govern the practice of nursing. Upon successful completion of the course, a certificate documenting 2 contact hours is issued.

Who Should Take This Course

This program is for every nurse in every practice setting at every level of practice.

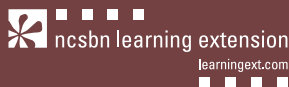

Participating Boards of Nursing

The following is a list of current participants in the online Nurse Practice Acts program. Check back often, as we are adding new state boards of nursing frequently!

*Although nurses can use this continuing education activity as part of their general continuing education requirements for licensure renewal, it does NOT meet the 1-hour law and rule (Category A) requirement for the Ohio Board of Nursing.
